Background:

Thank you so much for choosing our CBD oil. Our hemp is grown under strict supervision in Europe and shipped from there directly to our supplier, who then produce the best oil. From the production site, the oil is packaged and transported to our collection warehouse around the world, from where it is shipped to our customers. Our CBD oil all contains less THC than 0.2% by law. Our oil is a high quality cold pressed organic olive oil.

Ingestion:

The oil should be dripped under the tongue (possibly using a spoon), after which the oil is slowly absorbed through the mucous membranes. When taken orally (under the tongue), most CBD is absorbed into the body. Drinking or eating is not recommended for the first 15 minutes after ingestion. CBD oil should only be taken orally and should not be smoked or "steamed" (eg in e-cigarettes) Here are other suitable products. Before ingestion the oil should be shaken

Recommended dosage: 2 times daily (morning and evening) of 3-5 drops per day. walk.

Recommended maximum dosage: 50mg CBD daily.

The best effect is obtained by consuming the oil daily morning and evening.

Taste:

The taste of the oil is relatively mild. We remind you that the taste of hemp can seem very intense. The intensity of the taste will slowly diminish the longer the oil is under the tongue. Different flavors are available.

Storage:

The oil should be stored at normal room temperature or colder. When the oil is placed at lower temperatures, the oil can achieve a thicker consistency. The oil's consistency is normalized again as the temperature of the oil rises. If the oil does not have a slightly thicker consistency, the bottle can be kept under the warm water heat for a short time, for example 5 - 10 seconds. Then shake the bottle with the oil.
